Index to Volume 183

Acetylcholine
  adrenocortical stimulation by, 272
  content of brain in hypoglycemia, 32
  content of frozen brain, 27
Adrenal cortex
  effect of carbon dioxide on, 53
  function during exposure to carbon dioxide, 46
  stimulation by acetylcholine, 272
Adrenal glands
  changes in, following half-body x-irradiation, 71
  steroids and, 371
  weight of, and audiogenic seizures, 269
Adrenalectomy, effect of, on excretion of electrolytes and water, 291
Akers, R. P., 529
Akers, R. P. and B. W. Zweifach. Effect of vasoactive materials on the peripheral blood vessels in the hamster, 529
Albert, A., 163
Alderman, Ilo M., 98
Alella, A., 570
Alella, A., F. L. Williams, C. Bolene-Williams and L. N. Katz. Interrelation between cardiac oxygen consumption and coronary blood flow, 570
Alkjaersig, Norma, 111
Alkjaersig, Norma and W. H. Seegers. Formation of prothrombin from autoprothrombin by means of liver mitochondria, 111
Allbaugh, Enid, 193
Alloxan, effects on hemopoiesis, 209
Alonso, Lillian G., 284
Alonso, Lillian G. and T. H. Maren. Effect of food restriction on body composition of hereditary obese mice, 284
Altland, P. D., 91
American Physiological Society, Proceedings, fall meeting, 1955, 583
Ammons, J. C., 261
Andrews, H. L., 322
Andrews, H. L. and E. J. Liljegren. Effect of morphine and N-allylnormorphine on radiation mortality, 322
Androgen, effect on metabolism of seminal vesicle, 371
Anesthesia, baroreceptor reflexes under, 433
Anoxia in hypothermic cardiac arrest, 119
Aorta
  pressure-circumference relations in, 545
  thoracic, collateral circulation during acute obstructions of, 193
Apnea, effect on cardiovascular renal function, 149
Armstrong, W. D., 317, 475
Atherosclerosis, effect of choline citrate on, 535
Atwell, R. J., 451
Atwell, R. J., J. M. Ryan, H. B. Hull and J. F. Tomashefski. Factors influencing the alveolar-arterial oxygen pressure gradient role of the left heart, 451
Audiogenic seizures and adrenal weight, 269
Auditore, G. V., 309

Badeer, H. Role of hypoxia in hypothermic cardiac arrest in the heart-lung preparation, 119
Baiardi, J. C. Some effects of alloxan on hemopoiesis in the mouse, 209
Bailey, Ouida, 23
Baker, B. L., 331
Beatty, Clarissa H., 325
Beatty, Clarissa H. and Ruth D. Peterson. Comparison of urinary excretion of ketone bodies, nonprotein nitrogen, citric acid and glucose in alloxan diabetic and depancreatized rats, 325

Becker, E. L. Myocardium in puppies born at a simulated altitude of 20,000 feet, 203
Becker, E. L. and Betty J. Joseph. Measurement of extracellular fluid volumes in normal dogs, 314
Becker, E. L., J. A. Schilling and R. B. Harvey. Renal function and electrolytes in the llama, 307
Bethell, F. H., 331, 335
Bladder, urinary, carbon dioxide and, 391
Blanchaer, M. C., 95
Blanchaer, M. C., S. Brownstone and H. R. Williams. Decreased phosphofructokinase activity in preserved blood, 95
Blood
  coagulation and shock, 565
  flow, cardiac oxygen consumption and, 570
  flow, effect on diffusion, 125
  intrahepatic circulation, 235
  leucocytes, changes in, 214
  partition of cobalt 60, 173
  phosphofructokinase in, 95
  pressure, effect of graded doses of histamine on, 206
  pressure, effect of sex and age on, 141
  pressure responses to histamine, 137
  sodium and bromide transfers to, 427
  vessels, peripheral, effect of vasoactive materials on, 529
  volume, splanchnic, and *l*-hydrazinophthalazine, 144
Bloom, W. L., 345, 356
Bloom, W. L. and Jane A. Russell. Effects of epinephrine and of norepinephrine on carbohydrate metabolism in the rat, 356
Bohr, D. F., 331, 335, 523
Bohr, D. F., P. A. Rondell, L. E. Palmer, B. L. Baker and F. H. Bethel. Role of the kidney in development of vascular hypersensitivity following whole body irradiation, 331
Bohr, D. F., P. A. Rondell, L. E. Palmer and F. H. Bethell. Effect of kidney shielding on survival following whole body irradiation, 335

Brace, K. C. and P. D. Altland. Red cell survival in the turtle, 91
Bradley, S. E., 144

UMI

Brain
acetylcholine content of, during insulin hypoglycemia, 32
effect of acceleration on, 23
frozen, acetylcholine content of, 27
potassium in, 309
sodium and bromide transfers to, 427
stem responses by tooth stimulation, 253
volume during hypothermia, 19
BRANDT, C. S., 416
Bromide transfers, 427
BROWN, R. V., 137, 206, 433
BROWN, R. V. AND J. G. HILTON. Baroreceptor reflexes in dogs under chloralosane anesthesia, 433
BROWNSTONE, S., 95
BUCKLEY, NANCY M., 178

Calcium, embryo and, 365
Capillaries, distribution of flow through, 523
Carbon dioxide
effect of, on adrenal cortical activity and carbohydrate metabolism, 53
low concentration, adrenal function under, 46
low concentration, tissue oxygen consumption during, 44
CASTER, W. O., 317
CASTER, W. O., ADA B. SIMON AND W. D. ARMSTRONG. Evans blue space in tissues of the rat, 317
Castration, effect on metabolism of seminal vesicle, 371
Cerebrospinal fluid
pressure during hypothermia, 19
sodium and bromide transfers to, 427
Cerebrotonin of central origin, 12
CHAIKOFF, I. L., 459
CHINARD, F. P., 221
CHINARD, F. P., G. J. VOSBURGH AND T. ENNS. Transcapillary exchange of water and of other substances in certain organs of the dog, 221
Chloride, lithium, action on heart, 121
Cholesterol
absorption and elimination of, 86
in liver, 459
Choline citrate, effect in atherosclerosis, 535
Cholinesterase, erythrocyte permeability and, 538
Circulation
collateral, 193
peripheral, filling pressures during temporary arrest of, 513
Cobalt 60
blood and tissues partition of, 173
excretion of, 167
Collagen
of heart, 67
of skeletal muscle, 67
of uterus, 67
COMAR, C. L., 365
CORNBLATH, M. Reactivation of rabbit liver phosphorylase by epinephrine, glucagon and ephedrine, 240
Cortical projections of visceral afferents, 438
Corticoids, electrocardiographic abnormalities induced by, 550
CRAWFORD, J. D., 401
CROSSLAND, J., 27, 32
CROSSLAND, J., K. A. C. ELLIOTT AND HANNA M. PAPPIUS. Acetylcholine content of brain during insulin hypoglycemia, 32

CROWELL, J. W., 565
CROWELL, J. W. AND W. L. READ. *In vivo* coagulation—a probable cause of irreversible shock, 565
Cutaneous impulses, spinal pathway, 245

D'AMOUR, F. E., 269
D'AMOUR, F. E. AND A. B. SHAKLEE. Effect of audiogenic seizures on adrenal weight, 269
DAVIES, M. C., 535
DAVIS, J. O., 263
DAVIS, J. O., D. S. HOWELL AND R. E. HYATT. Sodium excretion in adrenalectomized dogs with chronic cardiac failure produced by pulmonary artery constriction, 263
Denervation, effect on muscle, 416
DENNIS, W. H., 75
Diabetes
alloxan, ketonuria in, 325
steroid, glucose utilization in, 302
Diffusion, circulation effects on, 125
DISERENS, H. W., 550
DUNN, M., 413

Ear, distribution of flow through capillaries in, 523
EDERSTROM, H. E., 340
Electrocardiogram, abnormalities in, induced by corticoids, 550
Electrolytes
adrenalectomy and excretion of, 291
gastric secretion of, 485
renal function and, 307
Electrophoresis, study of proteinuria by, 406
ELLIOTT, K. A. C., 27, 32
Embryo, calcium and, 365
ENGLISH, J. A. Enzymatic activity of radiated and normal salivary gland tissues, 463
ENNS, T., 221
Ephedrine, reactivation of liver phosphorylase by, 240
Epinephrine
effect on metabolism, 356
reactivation of liver phosphorylase by, 240
Erythrocytes
cholinesterase and permeability of, 538
survival, 91
ESSEX, H. E. The philosophy of physiology, 583
Estradiol-17β-induced uterine growth, modification of, by metacortandracin and metacortandralone, 259
Evans blue space in tissues, 317
Excretion
of cobalt 60, 167
urinary, in alloxan diabetic and depancreatized rats, 325
Exercise, temperature and respiratory responses in, 454
Extracellular fluid volumes, 314
Extravasation rate of thiocyanate, 178

Fat, dietary, and cholesterol absorption and elimination, 86

FELTS, J. M., 459
FISHMAN, A. P., 155
Fluid volumes, extracellular, 314
Food
  intake, central and sensory control of, 279
  restriction, effect on body composition, 284
FORD, ELIZABETH, 163
FORSTER, R. P., 149
FORSTER, R. P. AND J. NYBOER. Effect of induced apnea on cardiovascular renal functions in the rabbit, 149
Fructose diphosphate in blood, 95
